

## HALL HIRE AND ENTERTAINMENT

---

Whether you would like to book your entertainment through us or supply your own, here at The Waterfront we have the package to suit you. Listed below are our hall hire and entertainment costs.

### Wedding Hall Hire - £500.00

The starting cost of hiring our venue. This grants you access to the venue for the entirety of your day, including set-up, from 10am-12.30am, and our state of the art table and floor lighting (light supervisor included). Our dedicated wedding co-ordinator will lead you through all the arrangements for your big day, and be present throughout your time here.

### Security - £114.00 (per security person required)

A standard fixture of all the events we hold, we ask that security is present to oversee your event, as provided by us. It will be at the venues' discretion to decide how many security are required, with regards to numbers and customer safety.

### DJ and Lighting Engineer - £300.00

Why not take even more stress out of all the organisation of your day, and hire our resident DJ. This price includes one of our quality DJs and all our state of the art sound and lighting equipment, inclusive of all visuals and stage lighting. We strongly recommend this package, as it will ensure your event looks and sounds the best it possibly can, with our equipment catered specifically to the venue. This package also includes wall projections, which can be personalised with your own photographs.

### Live Entertainment

Many couples opt for live music to entertain their evening guests, and this is something that The Waterfront caters for perfectly with its built-in staging. Having played home to many live bands and singers, we are happy to give you some great recommendations. Just discuss this with our wedding team in your preliminary meetings.
